SASA SAHID VILIC VICHIR

FULL STACK DEVELOPER

Github | sahidvilic.wh@gmail.com | Linkedin | +51 932 430 421 | Portfolio

Full-stack developer with over two years of experience in designing, developing, and deploying web applications across the entire stack. Proficient in scalable architectures, RESTful API integration, and R/NR database management. Possesses strong expertise in Angular, React, Next.js, Node.js, NestJs, Django, AWS, Docker, and CI/CD. Skilled in agile methodologies (Scrum, Kanban) and the implementation of best practices for security and performance optimization.

TECHNICAL PROFICIENCIES:

AWS, JavaScript, HTML5, CSS3, TypeScript, Angular, React, Next.js, Node.js, NestJS, Python, Django, SQL, MySQL, Make, Zapier, Power Automate, GitHub, Postman, Scrum, Kanban

PROFESSIONAL EXPERIENCE

IT Intern - TDP Corporation   **Oct 2024 - Jul 2025**

- I created an internal system to manage campaigns in Django, decreasing execution times by 70% and enhancing the performance of the department.
- I integrated RESTful APIs and internal services, enhancing communication among system modules, and managed MySQL and MongoDB databases, optimizing query performance.
- I contributed to the implementation of a corporate CRM, incorporating user authentication and authorization.

Web Development - Newton School of San Miguel   **Dic 2024 - Ene 2025**

- I developed the Newton College website from the ground up, emphasizing an intuitive architecture and captivating educational content through the use of Next.js and React.
- I implemented SEO strategies to enhance visibility and developed a responsive website.
- Ensure seamless navigation and captivating content, ensuring mobile compatibility and optimal loading speed.

IT Support Intern - Newton College of San Miguel   **June 2023 - June 2024**

- I contributed to the planning and execution of technological solutions that align with the school's educational goals.
- I delivered technical support to over 12 users, efficiently resolving hardware, software, and connectivity issues.
- Documented recurring procedures to standardize technical support and enhance team efficiency on GitHub and management tools.

EDUCATION

Systems Engineering -   **Tenth Cycle - Ongoing**   **Apr 2021 - Dec 2025**
César Vallejo University

- **Certificaciones:**
  - Google Project Management
  - Responsive Web Design
  - Legacy JavaScript Algorithms and Data Structures

- **Languages:**
- **English B2 – Proficient in reading documentation, analyzing logs, and managing tickets in English.**
